DISRUPTION

A River of Secrets and Betrayal

In the midnight darkness north of New Orleans, the towboat's routine trip up the Mississippi River becomes something far more deadly. Captain Charlie Graff is suddenly thrust into the middle of one of the most twisted domestic terrorist plots ever conceived. He has to use his skill as Captain to protect his crew, his boat, his river, and his country.

On land, already overwhelmed FBI agent Emily Graham finds herself thrust into the role of leading the pursuit of the terrorists. Her journey leads to dead ends and dead witnesses. She discovers her trust in her team-members is wrong, the terrorists are not who they say they are, and that the people who actually initiated the attack don't even exist.

This tense, fast-paced thriller is a thousand mile journey with more twists and turns than the river that carries it. A story that begins and ends with betrayal. Betrayal that has but one goal: Disruption.

About the Author

J. B. Jamison is a life-long believer in the power of stories. First as a pastor, then education, then creator of Centers of Innovation at multiple universities, then the director of a national Game and Simulation academic degree program, and finally as the creator of ImagiLearning, Inc., stories have played a central role in his work and have remained a passion throughout his life.

Originally from Beardstown, IL, J. B. describes how his background created the stage for the story of Disruption:

“My dad was a towboat captain. I first told him my idea for the book many years ago and he laughed, saying it could never happen. In our final conversation before he died two years ago, he asked if I still remembered that story I had told him long ago. He said it had scared him to death, was absolutely possible, and he just didn't want to think about it while he was still out there. He said that I should write it. So I did.”
